ExxonMobil Credit Card Disclosures

Annual percentage rate (APR) for purchases	23.00% variable.						
Other APRs	Default APR: 29.99% variable. See explanation below.*						
Variable rate information	Your APRs may vary each billing period.** The purchase APR equals the Prime Rate plus 14.99% (with a minimum of 23.00%). The default APR equals the greater of (1) the Prime Rate plus up to 23.99% or (2) up to 29.99%.						
Method of computing the balance for purchases	Average daily balance. This includes new purchases.						
Minimum finance charge	\$2.99.						
Late fee	The greater of \$20 or 2.50% of the account balance as of the payment due date.						

- How can your actions trigger the default APR? If you default under any card agreement you have with us because you
 do not make the minimum payment when due,
 - go over the credit line, or
 - make a payment to us that is not honored,

all your APRs may automatically increase to the default APR. We set your default APR by reviewing (1) the seriousness of your default with us and (2) your credit history.

** How do we calculate variable rates? For each billing period we calculate the Prime Rate two business days before the Closing Date. At that time, we select the highest Prime Rate published in *The Wall Street Journal* within the last ninety days.

The ExxonMobil Credit Card Disclosures are accurate as of February 1, 2012. To find out what may have changed after that date, write to us at: Processing Center, P.O. Box 6250, Sioux Falls, SD 57117-9663.
